

# Stijn Duynslaeger

Creative Design & Development

## Profile

Creative designer and developer. Eager to learn and always looking for challenges.

Experienced all-round software architect, analyst and developer with an eye on both detail and the big picture.

My goal is to deliver solutions which bring your business to a higher level. To achieve this, I rely on my knowledge of a wide variety of development stacks combined with my enthusiasm for new technologies.

## Experience

### Software Architect // Stack & Heap

10/2014 - 03/2017

Stack & Heap has the mission to deliver high quality software and to help clients and teams succeed in their projects with the best results.

For our e-commerce solutions I was project manager and lead e-commerce developer, responsible for analysis, graphic design, development, infrastructure and customer guidance.

To allow the e-commerce solutions to communicate with offline and online applications in and outside organisations (ERP, CRM, mobile apps, ...) I have build a synchronisation platform to interchange data between several platforms.

PHP, C#, Java, Javascript, Typescript, Angular, NodeJS, MySQL, MongoDB, Varnish, Redis, Memcache, ElasticSearch, Azure, AWS, Madl, Magento, HTML5, CSS3, SOAP, RPC, Rest, Android, Windows Phone, Ionic, Photoshop, Test Driven Design, Domain Driven Design, Continuous Integration, ...

### Designer & Developer // Taste The Concept

05/2009 - 09/2014

Taste The Concept is a marketing agency that builds strong and recognizable identities.

I was responsible for the e-commerce solutions, interface and graphic design, development and server infrastructure.

PHP, MySQL, Flash, Actionscript, C#, .Net, Percona, Varnish, Magento, Photoshop, InDesign, Illustrator, Zend Framework, SEO, social media, marketing, ...

## Education

### Multimedia & Communication Technologies // Howest Kortrijk

2006 - 2009

Thanks to the bachelor Multimedia & Communicationtechnologie I own a diversity of skills and interests in the domain of IT. With the focus on multiple aspects of developing and designing creative solutions.

### Art Education // SASK Brugge

1999 - 2005

This part-time education gave me insights in graphical art, how to use color, shape, composition and expression.
